

Poetry.

THE GLADNESS OF NATURE.

BY WILLIAM C. BRYANT.

Is this a time to be cloudy and sad:
When our mother Nature laughs around:
When even the deep blue heavens look glad,
And gladness breathes from the blossoming
ground?

There are notes of joy from the hang-bird and
wren,
And the gossip of swallows through all the sky:
The ground squirrel gaily chirps by his den,
And the wilding bee hums merrily by.

The clouds are at play in the azure space,
And their shadow at play on the bright green
vale,
And here they stretch to the frolic chase,
And there they roll on the easy gale.

There's a dance of leaves in that aspen bower,
There's a titter of winds in that beechen tree,
There's a smile on the fruit, and a smile on the
flower,
And a laugh from the brook that runs to the
sea.

And look at the broad-faced sun, how he smiles
On the dewy earth that smiles in his ray,
On the leaping waters and gay young isles:
Ay look, and he'll smile thy gloom away.

THE SPIRIT DOVE.

BY JOHN N. MAFFITT.

Fly away to the promised land, sweet Dove!
Fly away to the promised land,
And bear those sighs to the friends I love,
The happy the beautiful band.

Deep gloom hath saddened my weary breast,
With sorrow my heart is stirred—
O, I long to hear from the land of the blest—
Then fly to their bowers, sweet Bird.

Oh fly to their bowers, sweet Bird and say,
The light of hope is on me now:
I pant to list to a Seraph's lay,
With bright glory on my brow.

I feel that this world is not my home—
An Angel's sweet voice I have heard,
As it comes from beyond the dark lone tomb—
Oh, fly to the bowers sweet Bird!

I will wait thy coming at dawn, sweet Dove,
I will wait thy coming at eve:
Oh, bear some news from the friends I love,
And then I will cease to grieve.

I could spring from the dungeon on wings I love,
I could fall by death's conquering sword.
But I cannot stay from my friends above—
Oh fly to their bowers, sweet Bird.

JOY IN GRIEF.

Christian resignation is very different from that
stoical stubbornness, which is most easily prac-
tised by those unamiable character who regard
centre wholly in self; nor could we in a proper
manner exercise submission to the will of God
under our trials, if we did not feel them; he
who knows our frame is pleased to allow that afflictions
for the present are not joyous, but grievous. But
to them that fear him, he is near at hand to support
their spirits, to moderate their grief, and in the
issue to sanctify it; so that they shall come out of
the furnace refined and more humble and spiri-
tual. There is a part, however, assigned us,—we
are to pray for the help in need, and we are not
willingly to give way to the impression of over-
whelming sorrow. We are to endeavour to turn
our thoughts to such considerations as are suited
to alleviate it: our deserts as sinners; the many
mercies we are still indulged with; the still greater
afflictions which many of our fellow-creatures
endure, and above all, the sufferings of Jesus, that
Man of Sorrows, who made himself intimately
acquainted with grief for our sakes. When the
will of the Lord is manifested to us by the event,
we are to look to him for grace and strength, and
be still and know that he is God: that he has a
right to dispose of us and ours as he pleases, and
that in the exercise of this right he is most cer-
tainly good and wise. We often complain of loss;
but the expression is rather improper. Strictly
speaking, we can lose nothing, because we have
no real property in anything. Our earthly com-
forts are lent us, and when recalled we ought to
return and resign them with thankfulness to him
who has lent them so long in our hands.

There is something fascinating in grief, painful
as it is, we are prone to indulge it, and to brood
over the thoughts and circumstances which are
suited, like fuel to fire to heighten and prolong it.
When the Lord afflicts, it is his design that we
should grieve; but in this as in all other things,
there is a certain moderation which becomes a
Christian, and which only grace can teach, and
grace teaches us not by books or by hearsay, but
by experimental lessons; all beyond this should
be avoided and guarded against as sinful and hurt-
ful.—*Newton.*

DEATH COMES ALIKE TO ALL.

It has been said, that "Death loves a shining
mark." He is indeed busy with the great, but not
less busy with the obscure and mean. "The in-
sensitive archer" has an arrow for each of us. "To
the same complexion we must come at last." "The
like even happeneth to us all." He hath occasions
which are more remarkable, and rarely, indeed
never in this land, hath he struck such terror by a
single shaft until now. We looked not for his
coming to that honored threshold, now overhung
with the melancholy signs of his dark presence.
The old soldier, it was fondly thought, had won
new vigor from the people's blessings:

For yet his lusty age seemed fresh and green,
His hoary head nobly erect was seen,
Nor needed he no stronger staff to lean.

But he is gone. Death's next message may be
to me. To you. Are we ready? O, my hearers,
let us not amuse ourselves with dreamy imagin-
ings. The change is awful from time to eternity.

It is as awful to meet the summons on our bum-
ble beds, as though we were canopied with purple;

alone, as though surrounded by groups of pale
friends. We know not when he may come, but
when he doth meet us, it is to bring us suddenly
before our God. While the Chief Magistrate lay
in the agonies of death, with a nation weeping ar-
ound him, how many, of whom the world knew
little, were in the same dread article? As they
passed the mysterious gate, the inequalities of earth
were left behind. One moment beyond this life,
and it will avail us nothing whether we may have
been rich or poor, honored or unknown. Our eter-
nity shall be begun.—*Dr. Bethune.*

Moffat's Life Pills and Phoenix Bitters.

ORIGIN OF THE LIFE MEDICINES.—The
reader may not perhaps be aware that the ori-
gin of Moffat's Life Medicines was the result of a
protracted and painful illness of their originator,
Mr. John Moffat. When taken ill, Mr. M. was a
prosperous and flourishing Merchant in the lower
part of the city, and having consulted and employ-
ed a number of our most skillful physicians, he, af-
ter months of suffering, was prevailed upon to pur-
chase the receipt of the invaluable vegetable prepa-
ration now offered to the public.

The effect of the Life Medicine in his own case
was so singular and remarkable, that he immediately
determined to offer to the world a medicine to
which he not only owed his life, but his happiness.
The uniform success which has since attended
their administration in every instance, where a fair
trial has been given them, has been attested by
thousands, and incontestably proves their intrinsic
merit.

BILLIOUS COMPLAINTS, & THE CAUSE.
—A well regulated and proportionate quantity of
bile upon the stomach is always requisite for the
promotion of sound health—it stimulates digestion,
and keeps the intestinal canal free from all obstruc-
tions. On the interior surface of the liver is a pecu-
liar bladder, in which the bile is first preserved,
being formed by the liver from the blood. Thence
it passes into the stomach and intestines, and regu-
lates the indigestion. Thus we see when there is
a deficiency of bile, the body is constantly consti-
pated. On the other hand, an overabundance of bile
causes frequent nausea in the stomach, and often pro-
motes very severe attacks of disease, which some-
times end in death.

Fevers are always preceded by symptoms of a dis-
ordered stomach, as are also scrofulous disorders,
and all sympathetic, functional, organic, or febrile
diseases. From the same cause, the natural and
healthy action of the heart, and the whole vascular
system is impaired and reduced below its natural
standard; as exhibited by palpitations, languid
pulse, torpors of the limbs, syncope, and even death
itself, in consequence of an overabundance of a pecu-
liar offensive substance to the digestive organs.

The Life Medicines should always be taken in
the early stages of billious complaints; and if perse-
vered in strictly according to the directions, will
positively effect a cure.

MERCURY IN THE SYSTEM.—The Life
Medicines will get all mercury out of the system
infinitely faster than the best preparations of Sassa-
para rilla, and are a certain remedy for the rushing
of blood to the head, or violent headaches, tic dou-
lorentes, &c. All persons who are predisposed to
syphilis, palsy, &c., should never be without the
Life Pills or the Bitters, for one dose in time will
save life. They equalize the circulation of the
blood, draw all pressure from the head, restore per-
spiration, and throw off every impurity by the pores
of the skin.

TO THOSE AFFLICTED WITH GOUT &
RHEUMATISM.—Moffat's Life Medicines have
performed the most extraordinary cures of Gout,
Rheumatism, and chronic complaints of all kinds,
when used with perseverance. They should how-
ever, be taken strictly according to the directions.

The Phoenix Bitters are so called, because they
possess the power of restoring the expiring elements
of health, to a glowing vigor through the conser-
vation, as the Phoenix is said to be restored to life
from the ashes of its own dissolution. The Phoenix
Bitters are entirely vegetable, composed of roots
found only in certain parts of the western country,
which will infallibly cure FEVERS AND AGUES
of all kinds, will never fail to eradicate entirely all
the effects of mercury, infinitely sooner than the
most powerful preparations of sassa-parilla, and will
immediately cure the determination of blood to the
head; never fail in the sickness incident to young
females; and will be found a certain remedy in all
cases of nervous debility and weakness of the most
impaired constitutions. As a remedy for Chronic
and Inflammatory Rheumatism, the efficiency of the
Phoenix Bitters will be demonstrated by the use of
a single bottle.

Unlike the host of pernicious quackeries, which
boast of vegetable ingredients, the Life Pills are
purely and solely vegetable, free from Mercu-
ry, Antimony, Arsenic, or any other mineral, in
any form whatever. They are entirely composed
of extracts from rare and powerful plants, the vir-
tues of which, though long known to several In-
dian tribes, and recently to some eminent phar-
maceutical chemists, are altogether unknown to
the ignorant pretenders to medical science, and
were never before administered in so happily effi-
cacious a combination.

The first operation is to loosen from the coats
of the stomach and bowels, the various impurities
and crudities constantly settling around them; and
to remove the hardened masses which collect in the
convolutions of the small intestines. Other medi-
cines only partially cleanse these, and leave such
collected masses behind as to produce habitual con-
stiveness, with all its train of evils, or sudden diarr-
hoea, with its imminent dangers. This fact is well
known to all regular anatomists, who examine the
human bowels after death: and hence the prejudice
of these well informed men against the quack medi-
cines of the age. The second effect of the VEG-
ETABLE LIFE PILLS is to cleanse the kidneys
and the bladder, and by this means, the liver and
the lungs, the healthful action of which entirely de-
pends upon the healthy action of the urinary or-
gans.

The following are among the distressing variety
of humors, to which the Vegetable Life
Pills are well known to be infallible and perfect
remedy:

DISSIPRIA, by thoroughly cleansing the first
and second stomach, and creating a flow of pure
healthy bile, instead of the stale and acrid kind;
Flatulency, Palpitation of the Heart, Loss of App-
etite, Heart-burn and Headache, Restlessness, In-
temper, Anxiety, Languor and Melancholy, which
are the general symptoms of Dissipation, will vanish,
as a natural consequence of its cure. Costiveness, by
cleansing the whole length of the intestines with a
solvent process, and without violence: all violent
purges leave the bowels constive within two days.

Diarrhoea and Cholera, by removing the sharp
acid by which these complaints are occasioned, and
by promoting the lubricative secretions of the mu-
cous membrane. Fevers of all kinds, by restoring
the blood to a regular circulation through the pro-
cess of perspiration in some cases, and the thorough
solution of all intestinal obstructions in others. The
Life Medicines have been known to cure Rheuma-
tism permanently in three weeks, and Gout in half
that time, by removing local inflammation from the
muscles and ligaments of the joints. Dropsies of
all kinds, by freeing and strengthening the kidneys
and bladder; they operate most delightfully on
those important organs, and hence have ever been
found a certain remedy for the worst cases of gravel.

Also Worms, by dislodging from the turnings
of the bowels of the slimy matter to which these
creatures adhere; Asthma and Consumption, by re-
lieving the air vessels of the lungs from the mucus,
that produces those dreadful diseases. Scourvy, Ul-
cers, and inveterate Sores, by the perfect purity
which these Life Pills give to the blood, and all the
humors; Scrofulic Eruptions and Bad Complexions,
by their alterative effects upon the fluids that
feed the skin, the morbid state of which occasions
all Eruptions & disagreeable Complexions. These
Pills will effect an entire cure of Salt Rheum Ery-
sypelas, and improve the Clearness of the Skin.
Colds and influenza, cured by one or two doses.
Piles,—as a remedy for this distressing and obsti-
nate malady, the Vegetable Life Pills deserves a
distinct and emphatic recommendation, as being a
sure remedy.

The above valuable medicines are constantly on
hand and for sale by LUTHER JEWETT, agent
for St. Johnsbury; Also by R. MOODY, Burling-
ton, Vt., to whom, please address all orders for
agencies, Post Paid. 191y1.

THE VEGETABLE PULMONARY BAL-
SAM is believed to be deservedly the most
popular Medicine ever known in America, for
coughs, colds, asthma or phthisis, consumption,
whooping cough, and Pulmonary affections of every
kind.

The Vegetable Pulmonary has been very exten-
sively used for about twelve years; and its reputa-
tion has been constantly increasing. So universal
popular has this article become that it may be
considered as a standard article in a large part of
the United States and British Provinces. Many
families keep it constantly by them, considering it
the most safe and certain remedy for the above
complaints. The proprietors have received, and
are receiving numerous recommendations from many
of our best Physicians, who make use of it in
their practice. The names of a few individuals
who have given their testimony in favor of this ar-
ticle are here subjoined, and for a more full account
see the envelope to the bottle.

AN INTERESTING CASE.

Extract of a letter from Mr. C. S. Clay, Kingston

Ulster county N. Y., to the proprietors:

Yours of the 9th instant was duly received. A
remarkable cure was effected by the Vegetable Pul-
monary Balsam, in the winter and spring of 1835.
The person, Mr. Moody, had been sick a long time
with the consumption. His physicians had given
him up. He was reduced so low as to be unable
to help himself, and was raising a large quantity
of blood, when he commenced using the Balsam,
which effected a complete cure, and he is now as
 hale and hearty as ever he was. Mr. Moody has
removed from this town, but he has promised me
a more detailed account of his case, which I will
forward you.

C. S. CLAY.

Kingston, N. Y. June 25, 1838.

Argyle, Nova Scotia.

In the winter of 1837 and 1838, I was seized
with a violent cough, which continued two or
three months. My cough was so severe that I
was obliged to sit up two or three hours dur-
ing the night, and I was much reduced in flesh and
strength, and my appetite gone. One of my neigh-
bors had a bottle of the Vegetable Pulmonary Bal-
sam, which he would not sell, he however loaned
it to me till I could get him another. I experienced
immediate relief from it. The first opportunity
I had I procured more of it, and to the use of it I
ascribe the preservation of my life.

COUNTERFEITS, BEWARE OF IMPOSI-

TION!

Each genuine bottle is enclosed in a blue wrap-
per, on which is a label, signed by SAMSON REED.
NONE OTHER CAN BE GENUINE.

The outside Yellow Label will have on, and
after December 1839, in addition to that of Samp-
son Reed, the Signature of Wm. JOHN CUTLER, one
of his partners.

The great celebrity of the Vegetable Pulmonary
Balsam has been the cause of attempts to introduce
spurious articles, which by partially assuming the
name of the genuine, are calculated to mislead and
deceive the public. Among these mixtures are the
"American Pulmonary Balsam," "Compound Pul-
monary Balsam," "Pulmonary Balsam," "Car-
ter's Compound Pulmonary Balsam," and others.
Purchasers for the true article by its whole name—
PULMONARY BALSAM, and see that it has the
marks and signatures of the genuine.

Each bottle and seal is stamped "Vegetable Pul-
monary Balsam."

*ONE MORE COUNTERFEIT, besides the "Ameri-
can Pulmonary Balsam," and others above alluded
to!—An attempt has been made to deceive the pub-
lic by a spurious mixture called "Vegetable Pul-
monary Balsam," sometimes signed Samuel Lee and
sometimes Sampson Lee—said to be prepared by an
unprincipled man in Bangor, Me. The name is
written in a way to resemble the genuine signature
and is a most foolish attempt to deceive the public
and avoid the punishment that await actual forge-
ry.

cines, Paints and Dye Stuffs, No. 54 Catham

READ ON

THE subscribers of Newbury, Vt. are interested
with Dr. CARTER in the preparation of his justly
celebrated Compound Pulmonary Balsam, but are
not interested in the preparation of any spurious or
counterfeit article as is falsely stated above, nor do
they wish to sell theirs on the credit of any other,
as they (as well as many who have given it a fair
trial) are satisfied that it is not only superior
to any other Medicine for Pulmonary Complaints.—
Therefore we say, beware of imposition and false
assertions made by those interested in vending other
"MIXTURES!" F. & H. KEYES.

Those wishing to purchase Dr. Carter's Compound
Pulmonary Balsam will please call for it by its
whole name. It may be had of LUTHER JEWETT,
St. Johnsbury, and by the druggists and merchants
generally in New England. 179m6
